

Monomeric Vinyl Transparent Glossy 100 C R Easy Pin

EMBLEM Monomeric Vinyl Transparent Glossy 100 C R Easy Pin consists of a transparent monomeric soft PVC foil with a glossy finish. This vinyl film is backed with evenly spaced small adhesive dots. This makes the foil very easy to handle and bubble-free bonding. The foil is covered on the reverse side with a high-quality coated liner.

Matchcode:	MOVITG100CREP
Material:	soft PVC film, monomeric
Finish:	glossy
Color:	transparent
Thickness:	100 μ m
Adhesive:	semi permanent acrylic adhesive
Liner:	siliconised kraft paper, 135 g/m ² ,
Adhesion:	N/A
Temperature resistance:	-20 °C to +65 °C
Application temperature:	+>10 °C
Standard roll width:	1370 mm
Standard roll length:	50 m
Durability:	Not usable for outdoor applications.
Storage:	cool and dry at 40-65 °C, 50 % rel. humidity
Shelf life:	12 months in original packing

COMPATIBLE INKS:

Eco solvent:	yes	UVC:	yes
Solvent:	yes	Latex:	yes

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

Monomeric Vinyl Transparent Glossy 100 C R Easy Pin

Description:

EMBLEM Monomeric Vinyl Transparent Glossy 100 C R Easy Pin consists of a transparent monomeric soft PVC foil with a glossy finish. This vinyl film is backed with small, evenly spaced adhesive dots. This makes the foil very easy to handle and enables bubble-free bonding. The back side of the foil is covered with a high-quality coated liner.

A special feature of this foil is the adhesive backing that is covered with small adhesive dots. This makes it possible to avoid the need for tools and prevents air bubbles from forming by using the dry application technique.

Easy Pin media can be easily used as window graphics, for seasonal advertising in retail establishments and for short term use in interior areas. Many smooth surfaces will provide a suitable base for EMBLEM MOVITG100CREP. The semi-permanent adhesive ensures that the sticker is easy to remove from most surfaces and is also easy to reposition as you attach it to your chosen surface.

Processing:

Films with Easy Pin adhesive are processed as a dry application. Apply the film on flat surfaces. The subsurfaces which are to be pasted up with the vinyl have to be free of dirt, dust and grease. We advise to check compatibility between adhesive and subsurface - please test before application.

After printing it is necessary to wait for an outright drying and degasing of the print to avoid diffusion of solvents which could damage the adhesive. In order to avoid finger marks, we recommend wearing cotton gloves while using.

Application:

Typical applications are short term signage and seasonal advertising in retail establishments.
